Both the flesh and eggs of poultry have become standard articles of diet. Eggs have been found to be a good substitute for meat; people of all nations eat more of them than of any other kind of food. Consequently, there is a large and steady demand for poultry products. Indeed, no other farm products, save, perhaps, those of the dairy, give as great a return as poultry for the time and money invested. Even when no especial emphasis is laid upon the raising of fowls, they prove profitable to their owners. On the average farm, the outlay for food for poultry is very small. They can be fed, in part, with the waste from the table. They can supplement this food with scraps and scattered grain, and with insects picked up about the farm and barnyard....

Reviews

This book is definitely not straightforward to get started on studying but extremely exciting to read. It is really simplistic but shocks in the 50 percent of the ebook. Once you begin to read the book, it is extremely difficult to leave it before concluding.
