To download **Advanced Engineering Mathematics, (Fourth Edition)** eBook, make sure you refer to the web link below and save the document or gain access to additional information which might be related to ADVANCED ENGINEERING MATHEMATICS, (FOURTH EDITION) book.

Jones & Bartlett India Private Limited/Viva Books, 2011. Softcover. Book Condition: New. 4th edition. Now with a full-color design, the new fourth edition of Zill's Advanced Engineering Mathematics provides an in-depth overview of the many mathematical topics necessary for students planning a career in engineering or the sciences. A key strength of this text is Zill's emphasis on differential equations as mathematical models, discussing the constructs and pitfalls of each. The Fourth edition is comprehensive, yet flexible, to meet the unique needs of various course offerings ranging from ordinary differential equations to vector calculus. New modern applications and projects, makes Zill's classic text a must-have text and resource for Engineering Math students. Key Features: ? New full-colour design and art program ? Nine new interesting projects appear in the front of the text ? Comprises a new section on Green's functions for ordinary differential equations. Includes new modern projects and applications ? Sections on Dot Product and Cross Product have been completely rewritten to bring them in conformity with the current approach to these subjects ? The section on Independence of the Path has also been completely rewritten. As an aftereffect of the calculus reform movement, the approach to this subject puts special emphasis on the notion of a conservative vector field; the rewriting brings this section into conformity with that approach ? New problems have been added throughout the entire text Contents : Projects: Projects for Section 2.2: When Differential Equations Invaded Geometry: Inverse Tangent Problems in the 17th Century Projects for Section 2.5: Two properties of the sphere Projects for Section 2.7: Potassium-Argon Dating Projects for Section 2.8: Tricky timing: The Isochrones of Huygenes and Leibniz Projects for Section 3.8: Vibration control: Vibration Isolation Projects for Section 3.11: Vibration control: Vibration Absorbers Projects for Section 9.16: Minimal Surfaces...
