The Malaysia Airlines Flight MH370 has been missing for well over a week now. With each passing day, the mystery deepens as analysts, governments and global citizens at large try to decipher what happened to the ill-fated flight. It disappeared into thin air, as if by magic, without leaving a trace; reportedly, the Malaysian Air Force did not pick up any data from the missing plane as it flew across the country's airspace. Two weeks into the mystery, families and friends of the passengers and crew members aboard Malaysia Airlines Flight MH370 continue to wait patiently as the coordinated search develops new twists every day. At the moment, the only sure thing in all this is that the plane is not in the air; it either crashed and its debris can't be recovered or landed in an undisclosed location after having flown under the radar for several hours. As the mystery unravels, we will keep you posted on the latest developments as well as analyzing the most talked about theories that have been put forward.
