# PHOTONIC DEVICES FOR TELECOMMUNICATIONS

Book Condition: New. Publisher/Verlag: Springer, Berlin | How to Model and Measure | This book is subdivided into three main Parts. The common spirit in these parts is to provide, at the beginning of each, a comprehensive introduction into the subject treated, followed by specific aspects pertaining to the modelling and/or measuring particularities arising from the investigation of photonic devices for telecommunications. Some of the devices treated here can be considered as widely known and well established. Others are rather...
