

The Mines of Cardiganshire: Metalliferous and Associated Minerals 1845-1913

By Roger Burt, Peter Waite, Ray Burnley

University of Exeter Press, 1985. Paperback. Book Condition: New Book. No Jacket. 12mo - over 5¾" - 8¾" Tall. Mines of Cardiganshire, The: Metalliferous and Associated Minerals 1845-1913 by Roger Burt, Peter Waite, Ray Burnley. New Book Pub University of Exeter Press 1985. This is the seventh volume in our continuing series of The Mineral Statistics of the United Kingdom 1845-1913 and begins the coverage of Wales. It covers the southern half of the central Wales orefield and provides details of the output, ownership, management and employment of more than two hundred and fifty mines operating in the county from the mid-nineteenth century. Some of these mines were among the most important in the British Isles.
